November 1, 2011

Dear Leaders of the Committee and Subcommittee:

The undersigned members of the Leadership Council of Aging Organizations (LCAO) thank you for your efforts to protect Older Americans Act (OAA) programs that help older Americas as they age at home and in the community. We ask that you strengthen and support OAA programs as you move forward in the fiscal year 2012 appropriations process.

LCAO is a 66-member coalition of diverse national nonprofit organizations dedicated to preserving and strengthening the well-being of older Americans. With a strong commitment to the needs of our older population and recognition of the challenging fiscal environment, the coalition provides leadership and vision as America meets the challenges and opportunities presented by its aging society.

As you know, the Older Americans Act is the backbone of the nation’s long-term care system. OAA programs help older Americans maintain or improve their health, age with dignity and remain in their homes and communities through home-delivered and congregate meal programs, in-home services, health and wellness programs at senior centers, jobs and training, transportation, family caregiver support, information, referral and assistance, elder abuse prevention and ombudsman services, and more. Its programs reach every state and congressional district in our nation.
LCAO understands the tremendous pressure you face to manage spending in this fiscal year. The recommendations you made for FY 2012 will not allow these programs to expand and reach the growing needs of an aging America. As advocates for the oldest, poorest, and most vulnerable in our society, we believe Congress can and should do better.

We urge you to approve a FY 2012 Labor/HHS/Education spending bill that includes the highest funding levels for Older Americans Act programs and services between the House and Senate bills. Furthermore, we urge you to support any recommendation that improves the capacity of OAA programs:

a. The Senate recommendation of $10 million for the Chronic Disease Self-Management Program and $7 million for Elder Falls Prevention Activities from the Prevention and Public Health Fund.

b. LCAO appreciates the Senate’s approach to moving the State Health Insurance Assistance Programs (SHIPs) to the U.S. Administration on Aging and the recommended funding level of $52 million.

We ask you to reject any proposal that reduces, eliminates or fails to provide funding for aging programs, such as:

c. The House proposal to entirely eliminate Title IV Program Innovations.

d. The reduction of funding for Title II Aging Network Support Activities.

e. The House and Senate acquiescence to deny first-time funding for the Elder Justice Act at the Administration on Aging.

f. The House proposal to amend the program cycle for the Senior Community Services Employment Program (SCSEP) by funding the program at $450 million for 15 months—resulting in a 20% reduction in funding.

We hope you will make every effort in FY 2012 to prevent the erosion of—and invest in the future of—innovative and cost-effective Older Americans Act programs. Please do not hesitate to contact the LCAO, at e-mail LCAO@LeadingAge.org, or at (202) 783-2242. Thank you.

Sincerely,
