The Honorable Ruben Hinojosa, Ranking Member
2262 Rayburn House Office Building
Washington, DC 20515

Dear Leaders of the Committee and Subcommittee:

The following members of the Leadership Council of Aging Organizations (LCAO) urge you to address the reauthorization of the Older Americans Act (OAA) this year.

LCAO is a 66-member coalition of diverse national nonprofit organizations dedicated to preserving and strengthening the well-being of older Americans. With a strong commitment to the needs of our older population and recognition of the challenging fiscal environment, the coalition provides leadership and vision as America meets the challenges and opportunities presented by its aging society.

Since 1965, the Older Americans Act has served millions of older adults by providing home and community-based services. As a Baby Boomer in America will turn 60 every seven seconds this year and the senior population will double by 2030, OAA programs will be all the more critical in the months and years ahead.

OAA programs help older Americans maintain or improve their health, age with dignity and remain in their homes and communities through home-delivered and congregate meal programs, in-home services, health and wellness programs at senior centers, jobs and training, transportation, family caregiver support, information, referral and assistance, elder abuse prevention and ombudsman services, and more. Its programs reach every state and congressional district in our nation.

Federal funding for OAA programs help leverage state, local and private dollars, creating private-public partnerships at the local level to offer older adults, particularly those most vulnerable in that community, a range of options to help them age in place. Additionally,
the Act saves taxpayer dollars by keeping older Americans in their homes, off Medicaid and able to stretch their own resources further.

Your commitment to reauthorizing this Act will reassure the millions of older Americans, their families and caregivers who rely on OAA services and supports. The OAA has been reauthorized 13 times in its history, and has a rich tradition of bipartisan support.

LCAO is deeply committed to the Older Americans Act, its current programs as well as to improvements that can be made for its future. As we confront the issues of an aging population, the Older Americans Act must remain a centerpiece of our nation’s aging policy.

We appreciate your consideration of our views and look forward to working with you on this reauthorization.

Sincerely,
